CIS 162 Lab 13
More Arrays

Part of your score for this lab is attendance. You should still be in Lab at 1:50, unless Project 4 is complete and has been demonstrated to me.

- From Array-2
    - sum67
    - shiftLeft
    - has77
    - sameEnds
    - post4
    - evenOdd (for a challenge, do it "in place" without creating a new array)
- From Array-3
    - canBalance
- From String-3
    - countTriple

When you are done, work on Project 4 in lab.

Grading Criteria
This lab is worth a possible 16 points.   Show your eight green check marks from Codingbat to the instructor or lab assistant. **NO need to upload your results to Zybooks.**
